

# TH TASS & HAMJIT

## CORPORATE PROFILE

## ABOUT US

We are a multi-disciplinary financial consulting firm dedicated in serving our clients as their most trusted business advisors. We have a presence in 6 countries and a client base in 10+ countries.

Our areas of expertise are:

- Assurance
- Advisory
- Accounting
- Tax
- Corporate Structuring
- Fintech
- Outsourcing
- Training & Academics

## WHO ARE WE?

We are a multi-service firm offering a broad range of services in assurance (audit), advisory (consulting), compliance, tax and legal domains. We predominantly serve small and medium-sized businesses by taking a holistic approach in addressing client requirements. We are currently present in 6 countries and we are continuing to expand to new territories.

Our team includes Chartered Accountants, Certified Management Accountants, Cost Accountants, Company Secretaries and Management Experts having experience working with global accounting and consulting firms as well as large corporates.

## WHY US?

We break the conventional relationship formula between a consultant and client by becoming a part of the business and through developing trust, confidence and professionalism.

We understand our client's root needs and find solutions through various scientific and technology-based approaches which are communicated to the client in an easily understandable way. Above being assistance we can work along with you to see that your financial management problems are solved in the right way at the right time.

We ensure expert knowledge, teamwork, advanced technologies and precise methodologies at your service.

## T&H VALUES

**TRUSTWORTHY**

**INTEGRITY**

**PROFESSIONALISM**

**ACCURACY**

**TRANSPARENCY**

### TRAINING

Our training programs make you market-ready by equipping you with the appropriate skills and fitting technology according to your industry. By bringing all the kinks to a higher and uniform level, we strengthen your weak links.

We offer two types of training

Corporate Training

Technical Training

# **TH AI** TASS & HAMJIT ADVANCED TECHNOLOGY

## **PROJECT MANAGEMENT SOFTWARES**

We use project management software to efficiently plan our projects, respond to problems, avoid project risks, keep track of all our tasks and to enhance productivity.

## **CLOUD STORAGE**

We use cloud storage, one of the most convenient and efficient methods to store data. The safety of company data is our primary concern and we own a secure cloud storage facility.

## **COMMUNICATION SYSTEM**

Our staff interacts internally and externally using officially assigned email accounts to stay connected with their co-workers as well as clients. We use digital solutions to streamline our communication needs and boost productivity.

## **DESIGN TOOLS**

Unlike other financial consulting firms, our company ensures to deliver aesthetically appealing designs to our clients using professional design softwares.

# TASS & HAMJIT ADVANCED TECHNOLOGY

## TAX FILING AUTOMATION

We provide automated taxing solutions that offer a number of benefits such as the promise of regulatory compliance, error-free and on-time reporting, scalability, and integrability.

We use various tools for filing automation that helps manage physical and digital records from a single platform and go less on paperwork.

## DASHBOARDING

We take a step forward from conventional paper services and provide customised real-time dashboards as per the client's requirements for any type of data. These dashboards can help you:

- Visualise your business growth.
- Measure your business performance against your goals with your data.
- Get actionable insights from your complex business data.
